

Commodity Description

H.S. NO.	ITEM NO.	Description	Q'ty	Set
9018. 12 0000		Electronic probe	1	1

A. Feature

- This probe is intended to come into direct contact with the surface of the human body when a doctor uses it to ultrasonically observe peripheral internal organs.
- HST(Hemispheric Sound Technolgy)
- Compatible with T.H.E, C.H.E and ExPureHD

B. Specification

1. Scanning method

- ELECTRONIC CONVEX SCANNING
- ELECTRONIC ENDO-CAVITY SCANNING

2. Application

- Abdomen, Liver, Kidney, Biopsy, Prostate

3. Ultrasound frequency

- 1.0 ~ 5.0 MHz (C253)
- 2.0 ~ 9.0 MHz (C41RP)

4. Scanning width

- Field of view : 60° (C253)
- Field of view : 180° (C41RP)

5. Environmental Conditions

(1) Operating Environmental Conditions

- Ambient Temperature : 10℃ ~ 40℃
- Relative Humidity : 30% ~ 75%

(2) Storage Environmental Conditions

- Ambient Temperature : -10℃ ~ 50℃
- Relative Humidity : 10% ~ 90%

C. Consist of

- (1) Electronic Probe
- (2) Cables
- (3) Connector
- (4) Needle Guide adaptor

D. Remark

1. Installation and operation should be performed by maker's certified/trained engineer at free of charge.
2. 3Years Warranty
