1. 품명	(국문) Model 655 Turbo Pumping Station (영문)		
2. 수량 / 단위		3. 금액	원
4. 연구과제명		5. 품목번호 (H S K N o .)	
6. 제작회사명 (국 명)			
7. 국내제 가 능 여 부		8. 기기의 중복 보유여부	
9. 사용용도/ 내구년수			
10. 품명 및 세부사양		단위	수량
A.기본구성사양 1.Model 655 Turbo Pumping Station - Model 655 Turbo Pumping Station B.기타사양 Model 655 Turbo Pumping Station Turbo pumping station, model 655, is a self-contained, modular, benchtop pumping station that is quiet, efficient and easy to use. It consists of the base unit that contains the vacuum pumps, gauges, and electronics, with transmission electron microscope (TEM) holder and/or specimen storage modules attached to a specialized vacuum port located on the top surface of the instrument. The vacuum port contains two internal butterfly valves and an external dual port valve assembly.		EA	1.
